**May 15<sup>th</sup>, 2010**

Rattle Snake Point Golf Club  
5407 Regional Road 25, Milton, ON

## OBJECTIVES

- Review the care of the very elderly patient in the peri-operative period.
- Understand the management of patients with critical aortic stenosis presenting for non-cardiac surgery.
- Describe critical incidents contributing to hospital-based mortality and understand the peri-operative pitfalls to mitigate the risk.
- Review peri-operative strategies for renal preservation in patients with moderate renal dysfunction.
- Identify issues regarding perioperative anticoagulant therapy.
- Describe the present and future impact of minimally invasive surgery.
- Review the peri-operative management of anemia.
- Describe the management of patients' routine medications peri-operatively.
- Review the latest in the peri-operative medicine literature.
- Describe the impact of a natural disaster and understand lessons learned in the delivery of peri-operative health care in Haiti.
- Learn management strategies for patients with recent coronary stents.

## TARGET AUDIENCE

Anesthesiologists, General Internists & Internist  
Subspecialists, Surgeons, Family Practitioners, Hospitalists,  
Nurses, Respiratory Therapists, Anesthesia Assistants &  
Other Health Care Professionals who manage patients in the perioperative period.
